PORTRAITS OF LEE PRESENTED.

The Distinguished Virginia Soldier and Diplomat Eulogized

BY COL. M'CABE AND CAPT. LAMB

Stirring Eloquence of, the Two Men in Their Reference to the South, the Confederacy, and Gen. Fitz. Lee-Col. McCabe's Address,

At the conclusion of the preliminary business incident to the regular meeting of Lee Camp last night, Commander Laughton stated that in view of the fact that at the meeting two portraits of Gen. Fitzhugh Lee would be presented to the Camp, no further routine business would be transacted, and then he introduced Col. Gordon McCabe, who, on behalf of Mrs. Fitzhugh Lee, who presented one of the portraits, and the firm of Homeier & Clark, who presented the other, turned the portraits of the great American over to the Camp in words of beauty and grace. Capt John Lamb in a stirring address regarded the posterior of beauty and grace. dress, received the portraits on behalf of the Camp.

The atmosphere was quite sultry, and The almosphere was quite in consequence, the attendance was not such as it might have been otherwise. But, even at that, Col. McCare and Congressman Lamb had a splendid audience before them, man? ladies and young men, besides the old Confederates them-selves, bearing the warm, almost oppres-sive atmosphere to hear the

COLONEL McCABE'S ADDRESS.
Colonel McCabe spoke as follows:
Comrades of R. E. Lee Camp:
On benaif of the family of General Fitzbugh Lee, I have the honor to present to the camp this portrait of that brilliant soldler, now a major-general and corps commander in the Army of the United States, but forever closest to our hearts in this uniform of gray as the "beau-sabreur" of the "Army of Northern Virginia."
I shall not speak at any great length, for in presence of the veterans of that immortal army, in which he won his golden sputs of knighthood, but fow words are necessary
As we gaze upon the familiar face, so frank, so brave, and debonair, fashioned with such subtle cumning by the painter's art than we almost catch the merry quiper cheery word of command from the bearded mouth, it seems but yesterday that we saw him wrapped in the dust and smoke of bottle, "witching the world with noble horsemanship" and daz-

True, those eventful days of splendid heroism and desperate daring, fraught even to the end with so much mouraful glory, have long since passed away-yet never can they be forgotten by the men who were steadfast to their colors, or by those who gave their all without grudge and without stint for what they held to be the heritage of freemen.

Aye! more than a generation, as men count time, has passed since we shared with him the rough delights, the tolls, the dangers of field of battle and march and bivouce, and Time, as is inevitable. has brought with it new conditions and new duties, which none worthy of the name of man may shirk.

A great English thinker has pithily said that "the reward of our duty is the power to fulfill another," and who that knows our people can deny that the best guarantee for fitness and fidelity in dealing with the problems that in every relation of life have confronted us during these thirty years of peace, has been charale-minded devotion in those stormy relation of life have confronted us dur-ing these thirty years of peace, has been eingle-minded devotion in those stormy days of war to that Cause, which de-veloped to heroic pitch by fire of battle the noblest virtues that God has allowed to mortal man. Such reward was that vouchsafed to Virtuely Lee.

Fitzhugh Lee. HIS GRANDSIRE'S PEER.

Thus it was that, when the people of Virginia, not unmindful of his unswerving patriotism and splendid valor, consplenous everywhere in those agonizing spicuous everywhere in the second pears from 1831 to 1855, summoned him with glad acclaim to guide the destinies of the State as Chief Executive, the rough-rider of the old "cavalry corps" proved hiself the sagacious public servant, and he, who had rivalled the brilliant darlog of "Light-Horse Harry" in the field, evidenced by a wise and temperate administration that he was his grand-sire's peer in civic affairs, and not unworthy of the noble stock from which he sorrus.

Of the firmness, the amazing vigor, the ready intellience, the sobriety of judg-ment with which he discharged the delicate and weighty duties of chief repre-sentative of the United States at Hab-ana, there is no need for me to speak. THE SOUTH'S PATRIOTISM.

And so to-day, the men who were the tray are rallying under dashing Journal of the control of the con And so to-day, the men who wore the gray are railying under dashing Joe Wheeler and our peerless "Old Fitz." from this ancient Commonwealth and from the "tried and true" "Old North State:" from the rice-fields of Carolina and the cotton-lands of Georgia and Alabama; from Arkansoa and Mississippli from the savannahs of Florida and Louislana, and from that teeming empire beyond "the Father of Waters," whose "Lone-Star" banner has ever blazed in glory's van—a mirhty partiot host eager to touch elbows with their old adversaties of a hundred lights, and to keep time with cadenced step to the music of the Union—aye! and to hedge 'round with stubborn steel that starry banner, which once more symbolizes "males" of American citizensbip and the indestructibility of republican institutions. When was there, indeed, a time of danger and of daring in the history of this country since it has been a country, when the fires of southern patriotism

of this control of southern patriotism quickened by the first hot breath of perfit did not bicse out with such surpassing brightness as made them serve as a faming beacon to their countrymen from the fron-bound coast of New England to the golden sands of the Gulf?

Let who will call it Southern "bragging" and "Southern provincialism," but when Americans in vague and general terms boast "the giories of our common country." I hold it to be only a proper pride that bids me, as a Virginian remember that it was a Virginian (Great-grandsire of "Our

SOUTHERN MEN THE LEADERS.

And turning from statesmanship to arms, surely 'tis the same proper pride

that bids us southern men remember that in every war waged in this country, from the Colonial wars against the French and

Indians, down to 1861, this whole American people ever looked to men of south-

the Capitol, led the new nation out of the narrow bondage of royal tyranny into

the broad sunlight of republican freedom; that it was to a southern man and his little handful of intrepid Virginians that

the nation owes "the winning of the West;" that it was three southern sol-diers in the war of 1812 who retrieved the

disasters that befell the American arms on land-one yonder at New Orleans, where, with his "trusty hunters from

Kentucky," behind their cotton bales, he hurled back in rout and disaster the

flower of England's veteran infantry, fresh from historic fields in Spain, where

And even in this present war with Spain, brief as has been the time of ac-tive operations, we canot forget that the first libation offered by America on the

ABLE ADMINISTRATION.

To have been chief magistrate of this ancient Commonwealth, and performed with distinguished ability and fidelity the duties of a station filled by men like Patrick Henry and Thomas Jefferson and James Monroe and John Tyler, and a long list of worthy heroes and statesmen, is a distinguished honor, and the historian of the future in summing up the life and services of Flizhugh Lee will point with pride and satisfaction to his able and important administration of the office of Governor of this Commonwealth.

A few years ago a former Governor of this State was offered by the administration in power the collectorship of one of the internal revenue districts. The Doctor then related a circumstance in relation to the present relationship between this country and spies, which oc curred before the General was recalled

from his post as Consul-General.

General Lee had complained to General Weyler of the treatment of certain Americans in Cuba, and the latter had replied that as martial law existed in that country everything done by the

Spaniards was all right.

The reply given by General Lee was to
the effect that neither the Captain-General of Cuba nor the Queen of Spain had the right or the power to overlook the the right or the power to overhook in-treaty relation that the United States held, and he demanded the release of certain American prisoners in Havana. This action of General Lee was wired by himself to the Secretary at Washing-

on, who replied asking for his plans, and suggesting that if necessary a warship would be sent to him. The reply given by General Lee was

characteristic: "I have no plans, save such that will tend to give to American citizens the rights and privileges they ought to have, and if you believe that a
